

FREE Rapid Access Counselling

Sessions are 1 Hour and Free

We all experience bumps in the road. There are times when we feel overwhelmed, lost or simply unable to cope with our problems. Life comes with challenges, but you don't have to face them alone.

We are here for you. 

Rapid Access Counselling is meant to use a strengths focused, trauma informed approach and meet each person where they are at. Working on the presenting problem being faced in the present moment.

Should it come up that you are interested in long term counselling, or other options, you will be referred appropriately.

Envision is a non-profit, community-based organization governed by a volunteer Board of Directors from Southeast Saskatchewan.

Rapid Access Counselling

**An immediate,
accessible form of
brief counselling.**

About RAC

Rapid Access Counselling is a free, immediate, accessible form of brief counselling.

People can access FREE, same day services without having to wait. Services are provided by qualified counsellors. We also help people to connect to the community and health services they might need.

Who Can Use RAC?

Anyone. Rapid Access Counselling is purposefully provided to meet people where they are at, in the community utilizing a trauma informed approach.

(Please Note: Youth under 12 would utilize the CYC program)

How it Works

To book, clients can either visit www.counsellingconnectsask.ca or call an Envision office to book.

Sessions will be open for booking up to 2 weeks in advance. Rapid Access counselling sessions are available on a “first come, first serve” basis with a limited number of spots each day.

However, if the local counsellor in your area is fully booked, the online platform allows you to see the available counsellors across Saskatchewan to book a virtual or phone appointment when you need it.

Where is RAC Available?

Envision RAC Clinics are offered in the following communities:

- Weyburn
- Estevan
- Carlyle
- Oxbow
- Moosomin
- Rocanville

Visit www.counsellingconnectsask.ca to find appointment availability at the above listed locations.

Why Rapid Access?

Due to a steadily increasing demand for mental health services, individuals and families who experience adversity may also experience barriers to accessing timely and affordable care.

Research shows timely and focused interventions offered in Rapid Access Clinics and utilizing brief therapies, can lead to meaningful change and reduce the burden of stress; confirming the vital role an accessible Rapid Access Clinic plays in meeting the needs of all community members.

BENEFITS OF BRIEF THERAPY

1

Brief therapy models offer a complete counselling experience in less than four visits.

2

Each session can be considered a single meeting whereby rapid help is offered at the time the individual needs it.

3

Literature demonstrates the vast majority of clients attend four sessions or less of ongoing focused therapy.

4

Canadian research indicates brief therapy is effective and can reduce barriers to access and timely provision of services.
